Dave and I have been married for 48 years. We are both retired but Dave calls himself rewired.

We have four grown children and two beautiful grandchildren who live nearby so lots of fun there.

I have great memories of high school lunch period, and majorettes...especially trips with the band. Not the best reference for someone who ended up teaching for over 25 years!

Best book...so many but The Power of Now by Eckhart Tolle, and the Gift of Years by Joan Chittister are both great.

The best movie still has to be Dirty Dancing, but I just watched The Lion King with my granddaughter...pretty great!

I am currently most interested in being a great Grandma, but I enjoy art, still give art lessons with my daughter, and am also very interested in helping the Monarch butterflies find their way to Mexico, so interesting. I know it has been a great day when I've watched butterflies tuck themselves into pine branches for the night.

Best vacation would have to be a cruise on the Mediterranean Sea with stops in Italy, Turkey and Greece....wonderful.

I have lots of awards from my students, don't we all if we taught the young ones. I taught Kindergarten so got credit for lots of great things.

My best award is probably "I love you Oggie" from my 3 year old granddaughter.

My plans for the future include improving my art skills, my gardens, creating more space for butterflies, completing my little book, as always getting organized, but most importantly being loved.
